Subject index

Volume 148 (1994)

Absorption in humans; Nickel; Biokinetics; Stable isotope tracers; Isotopic methods 148, 253

Abortion; Congenital defects; Nickel 148, 287

Accumulation; Nickel; Phytotoxicity; Plants; Animals; Background levels 148, 109

Accumulation; Zinc; Cadmium; Mercury; Fish; Survival 148, 31

Air pollution; Aromatic hydrocarbons; Personal exposure 148, 49

Air pollution; Environmental health; Respiratory disease; In-born malformation 148, 57

Algae; Nickel; Chromium; Toxicity; Ore; Invertebrates 148, 139

Alveolar macrophage; Nickel hydroxy carbonate; Electron microscopy; Energy dispersive spectrometry; ATP; Lactate dehydrogenase (LDH); β -glucuronidase 148, 175

Amino acid crosslinks; Nickel; Carcinogenesis; Oxidants; Thrombospondin; Heterochromation 148, 191

Analytical methods; Nickel; Body fluids; Reference values; Control population; Critical evaluation 148, 243

Animals; Nickel; Phytotoxicity; Accumulation; Plants; Background levels 148, 109

Aromatic hydrocarbons; Air pollution; Personal exposure 148, 49

Arsenic; Nickel refining; Dust; Speciation; Cancer; Epidemiology 148, 263

ASS2 (CHO) cells; Nickel; Mutant characterization; PCR 148, 201

Atmospheric phenanthrene oxidation; Hydroxyl radical; Indoor Teflon chamber experiment; Gas chromatography/mass spectrometry analysis 148, 11

Atomic absorption spectrophotometry (AAS); Tin; Biological reference materials; Instrumental neutron activation analysis (INAA); Radiochemical neutron activation analysis (RNAA) 148, 39

ATP; Nickel hydroxy carbonate; Alveolar macrophage; Electron microscopy; Energy dispersive spectrometry; Lactate dehydrogenase (LDH); β -glucuronidase 148, 175

Background levels; Nickel; Phytotoxicity; Accumulation; Plants; Animals 148, 109

Biochemical alterations; Dietary iron deficiency; Nickel; Cadmium; Metallothionein; Metals; Rat 148, 167

Biokinetics; Nickel; Stable isotope tracers; Isotopic methods; Absorption in humans 148, 253

Biological reference materials; Tin; Atomic absorption spectrophotometry (AAS); Instrumental neutron activation analysis (INAA); Radiochemical neutron activation analysis (RNAA) 148, 39

Bivalves; Heavy metals; Seafoods; Molluscs; Fresh and canned samples; Whole molluscs; Visceral tissue; Canning industry products 148, 1

Black-nickel; Nickel allergy; Occupational dermatitis; Patch testing; Dimethylglyoxime test; Cold-sealed aluminium 148, 283

Blood gas analysis; Nickel carbonyl; Lung function 148, 299

Body fluids; Nickel; Analytical methods; Reference values; Control population; Critical evaluation 148, 243

Cadmium; Dietary iron deficiency; Nickel; Metallothionein; Biochemical alterations; Metals; Rat 148, 167

Cadmium; Zinc; Mercury; Fish; Survival; Accumulation 148, 31

Cancer; Nickel refining; Arsenic; Dust; Speciation; Epidemiology 148, 263

Canning industry products; Heavy metals; Seafoods; Bivalves; Molluscs; Fresh and canned samples; Whole molluscs; Visceral tissue 148, 1

Carcinogenesis; Epidemiology; Human nasal mucosa; Histology; Precancerous; Nickel 148, 311

Carcinogenesis; Nickel; Oxidants; Thrombospondin; Amino acid crosslinks; Heterochromation 148, 191

Carcinogenicity; Nickel carbonyl; Poisoning 148, 293

Chelation; Nickel; Dithiocarbamates; Thiuram sulphides; Xanthates; Pyridinethiones; Halogenated 8-hydroxyquinolines 148, 217

Chromium; Nickel; Toxicity; Algae; Ore; Invertebrates 148, 139

CO dehydrogenase; Nickel; Hydrogenase; Urease; Methyl coenzyme M reductase 148, 157

Cold-sealed aluminium; Nickel allergy; Occupational dermatitis; Patch testing; Dimethylglyoxime test; Black-nickel 148, 283

Confounders; Stainless steel; Welding; Lung cancer; Epidemiology 148, 303

Congenital defects; Abortion; Nickel 148, 287

Control population; Nickel; Body fluids; Analytical methods; Reference values; Critical evaluation 148, 243

Copper levels; Zinc levels; Serum; Urine; Spanish population 148, 67

Critical evaluation; Nickel; Body fluids; Analytical methods; Reference values; Control population 148, 243

Dam sediment; Mercury; Neutron activation analysis; Trace elements 148, 45

2'-Deoxyguanosine; Nickel; Ni(II); 8-Hydroxy-2'-deoxyguanosine; DNA; Nucleohistone; Tetraglycine 148, 207

Dietary iron deficiency; Nickel; Cadmium; Metallothionein; Biochemical alterations; Metals; Rat 148, 167

Dimethylglyoxime test; Nickel allergy; Occupational dermatitis; Patch testing; Cold-sealed aluminium; Black-nickel 148, 283

Dithiocarbamates; Nickel; Chelation; Thiuram sulphides; Xanthates; Pyridinethiones; Halogenated 8-hydroxyquinolines 148, 217

DNA; Nickel; Ni(II); 2'-Deoxyguanosine; 8-Hydroxy-2'-deoxyguanosine; Nucleohistone; Tetraglycine 148, 207

Dust; Nickel refining; Arsenic; Speciation; Cancer; Epidemiology 148, 263

Electron microscopy; Nickel hydroxy carbonate; Alveolar macrophage; Energy dispersive spectrometry; ATP; Lactate dehydrogenase (LDH); β -glucuronidase 148, 175

Elicitation; Nickel dermatitis; Quantitative aspects; Sensitization 148, 275

Energy dispersive spectrometry; Nickel hydroxy carbonate; Alveolar macrophage; Electron microscopy; ATP; Lactate dehydrogenase (LDH); β -glucuronidase 148, 175

Environmental health; Air pollution; Respiratory disease; Inborn malformation 148, 57

Epidemiology; Carcinogenesis; Human nasal mucosa; Histology; Precancerous; Nickel 148, 311

Epidemiology; Nickel refining; Arsenic; Dust; Speciation; Cancer 148, 263

Epidemiology; Stainless steel; Welding; Lung cancer; Confounders 148, 303

Fish; Zinc; Cadmium; Mercury; Survival; Accumulation 148, 31

Fluorescence quenching; Organic matter; Metal complexation 148, 73

Fresh and canned samples; Heavy metals; Seafoods; Bivalves; Molluscs; Whole molluscs; Visceral tissue; Canning industry products 148, 1

Gas chromatography/mass spectrometry analysis; Atmospheric phenanthrene oxidation; Hydroxyl radical; Indoor Teflon chamber experiment 148, 11

Global positioning system; Limnology 148, 83

β -glucuronidase; Nickel hydroxy carbonate; Alveolar macrophage; Electron microscopy; Energy dispersive spectrometry; ATP; Lactate dehydrogenase (LDH) 148, 175

Hair; Natural radionuclides; Polonium-210; Lead-210; Urine; Uranium processing mills; Occupational contamination 148, 61

Halogenated 8-hydroxyquinolines; Nickel; Chelation; Dithiocarbamates; Thiuram sulphides; Xanthates; Pyridinedithiones 148, 217

Heavy metals; Seafoods; Bivalves; Molluscs; Fresh and canned samples; Whole molluscs; Visceral tissue; Canning industry products 148, 1

Heterochromation; Nickel; Carcinogenesis; Oxidants; Thrombospondin; Amino acid crosslinks 148, 191

Histology; Epidemiology; Carcinogenesis; Human nasal mucosa; Precancerous; Nickel 148, 311

Historical data; Ozone; Tropics; Ozone trend 148, 23

Human nasal mucosa; Epidemiology; Carcinogenesis; Histology; Precancerous; Nickel 148, 311

Hydrogenase; Nickel; Urease; CO dehydrogenase; Methyl coenzyme M reductase 148, 157

8-Hydroxy-2'-deoxyguanosine; Nickel; Ni(II); 2'-Deoxyguanosine; DNA; Nucleohistone; Tetraglycine 148, 207

Hydroxyl radical; Atmospheric phenanthrene oxidation; Indoor Teflon chamber experiment; Gas chromatography/mass spectrometry analysis 148, 11

Inborn malformation; Air pollution; Environmental health; Respiratory disease 148, 57

Indoor Teflon chamber experiment; Atmospheric phenanthrene oxidation; Hydroxyl radical; Gas chromatography/mass spectrometry analysis 148, 11

Instrumental neutron activation analysis (INAA); Tin; Biological reference materials; Atomic absorption spectrophotometry (AAS); Radiochemical neutron activation analysis (RNAA) 148, 39

Invertebrates; Nickel; Chromium; Toxicity; Algae; Ore 148, 139

Isotopic methods; Nickel; Biokinetics; Stable isotope tracers; Absorption in humans 148, 253

Kola peninsula (Russia); Nickel smelters; Pollution 148, 103

Lactate dehydrogenase (LDH); Nickel hydroxy carbonate; Alveolar macrophage; Electron microscopy; Energy dispersive spectrometry; ATP; β -glucuronidase 148, 175

Latency; Nickel; Tumor formation 148, 185

Lead-210; Natural radionuclides; Polonium-210; Hair; Urine; Uranium processing mills; Occupational contamination 148, 61

Limnology; Global positioning system 148, 83

Lung cancer; Stainless steel; Welding; Confounders; Epidemiology 148, 303

Lung function; Nickel carbonyl; Blood gas analysis 148, 299

Mercury; Dam sediment; Neutron activation analysis; Trace elements 148, 45

Mercury; Zinc; Cadmium; Fish; Survival; Accumulation 148, 31

Metal complexation; Organic matter; Fluorescence quenching 148, 73

Metallothionein; Dietary iron deficiency; Nickel; Cadmium; Biochemical alterations; Metals; Rat 148, 167

Metals; Dietary iron deficiency; Nickel; Cadmium; Metallothionein; Biochemical alterations; Rat 148, 167

Methyl coenzyme M reductase; Nickel; Hydrogenase; Urease; CO dehydrogenase 148, 157

Molluscs; Heavy metals; Seafoods; Bivalves; Fresh and canned samples; Whole molluscs; Visceral tissue; Canning industry products 148, 1

Mutant characterization; Nickel; AS52 (CHO) cells; PCR 148, 201

Natural radionuclides; Polonium-210; Lead-210; Hair; Urine; Uranium processing mills; Occupational contamination 148, 61

Neutron activation analysis; Mercury; Dam sediment; Trace elements 148, 45

Ni(II); Nickel; 2'-Deoxyguanosine; 8-Hydroxy-2'-deoxyguanosine; DNA; Nucleohistone; Tetraglycine 148, 207

Nickel; AS52 (CHO) cells; Mutant characterization; PCR 148, 201

Nickel; Biokinetics; Stable isotope tracers; Isotopic methods; Absorption in humans 148, 253

Nickel; Body fluids; Analytical methods; Reference values; Control population; Critical evaluation 148, 243

Nickel; Carcinogenesis; Oxidants; Thrombospondin; Amino acid crosslinks; Heterochromation 148, 191

Nickel; Chelation; Dithiocarbamates; Thiuram sulphides; Xanthates; Pyridinedithiones; Halogenated 8-hydroxyquinolines 148, 217

- Nickel; Chromium; Toxicity; Algae; Ore; Invertebrates** 148, 139
- Nickel; Congenital defects; Abortion** 148, 287
- Nickel; Dietary iron deficiency; Cadmium; Metallothionein; Biochemical alterations; Metals; Rat** 148, 167
- Nickel; Epidemiology; Carcinogenesis; Human nasal mucosa; Histology; Precancerous** 148, 311
- Nickel; Hydrogenase; Urease; CO dehydrogenase; Methyl coenzyme M reductase** 148, 157
- Nickel; Ni(II); 2'-Deoxyguanosine; 8-Hydroxy-2'-deoxyguanosine; DNA; Nucleohistone; Tetraglycine** 148, 207
- Nickel; Phytotoxicity; Accumulation; Plants; Animals; Background levels** 148, 109
- Nickel; Tumor formation; Latency** 148, 185
- Nickel allergy; Occupational dermatitis; Patch testing; Dimethylglyoxime test; Cold-sealed aluminium; Black-nickel** 148, 283
- Nickel carbonyl; Carcinogenicity; Poisoning** 148, 293
- Nickel carbonyl; Lung function; Blood gas analysis** 148, 299
- Nickel dermatitis; Quantitative aspects; Sensitization; Elicitation** 148, 275
- Nickel hydroxy carbonate; Alveolar macrophage; Electron microscopy; Energy dispersive spectrometry; ATP; Lactate dehydrogenase (LDH); β -glucuronidase** 148, 175
- Nickel refining; Arsenic; Dust; Speciation; Cancer; Epidemiology** 148, 263
- Nickel smelters; Pollution; Kola peninsula (Russia)** 148, 103
- Nucleohistone; Nickel; Ni(II); 2'-Deoxyguanosine; 8-Hydroxy-2'-deoxyguanosine; DNA; Tetraglycine** 148, 207
- Occupational contamination; Natural radionuclides; Polonium-210; Lead-210; Hair; Urine; Uranium processing mills** 148, 61
- Occupational dermatitis; Nickel allergy; Patch testing; Dimethylglyoxime test; Cold-sealed aluminium; Black-nickel** 148, 283
- Ore; Nickel; Chromium; Toxicity; Algae; Invertebrates** 148, 139
- Organic matter; Fluorescence quenching; Metal complexation** 148, 73
- Oxidants; Nickel; Carcinogenesis; Thrombospondin; Amino acid crosslinks; Heterochromation** 148, 191
- Ozone; Tropics; Historical data; Ozone trend** 148, 23
- Ozone trend; Ozone; Tropics; Historical data** 148, 23
- Patch testing; Nickel allergy; Occupational dermatitis; Dimethylglyoxime test; Cold-sealed aluminium; Black-nickel** 148, 283
- PCR; Nickel; ASS2 (CHO) cells; Mutant characterization** 148, 201
- Personal exposure; Aromatic hydrocarbons; Air pollution** 148, 49
- Phytotoxicity; Nickel; Accumulation; Plants; Animals; Background levels** 148, 109
- Plants; Nickel; Phytotoxicity; Accumulation; Animals; Background levels** 148, 109
- Poisoning; Nickel carbonyl; Carcinogenicity** 148, 293
- Pollution; Nickel smelters; Kola peninsula (Russia)** 148, 103
- Polonium-210; Natural radionuclides; Lead-210; Hair; Urine; Uranium processing mills; Occupational contamination** 148, 61
- Precancerous; Epidemiology; Carcinogenesis; Human nasal mucosa; Histology; Nickel** 148, 311
- Pyridinedithiones; Nickel; Chelation; Dithiocarbamates; Thiuram sulphides; Xanthates; Halogenated 8-hydroxy-quinolines** 148, 217
- Quantitative aspects; Nickel dermatitis; Sensitization; Elicitation** 148, 275
- Radiochemical neutron activation analysis (RNAA); Tin; Biological reference materials; Atomic absorption spectrophotometry (AAS); Instrumental neutron activation analysis (INAA)** 148, 39
- Rat; Dietary iron deficiency; Nickel; Cadmium; Metallothionein; Biochemical alterations; Metals** 148, 167
- Reference values; Nickel; Body fluids; Analytical methods; Control population; Critical evaluation** 148, 243
- Respiratory disease; Air pollution; Environmental health; Inborn malformation** 148, 57
- Seafoods; Heavy metals; Bivalves; Molluscs; Fresh and canned samples; Whole molluscs; Visceral tissue; Canning industry products** 148, 1

Sensitization; Nickel dermatitis; Quantitative aspects; Elicitation 148, 275

Serum; Zinc levels; Copper levels; Urine; Spanish population 148, 67

Spanish population; Zinc levels; Copper levels; Serum; Urine 148, 67

Speciation; Nickel refining; Arsenic; Dust; Cancer; Epidemiology 148, 263

Stable isotope tracers; Nickel; Biokinetics; Isotopic methods; Absorption in humans 148, 253

Stainless steel; Welding; Lung cancer; Confounders; Epidemiology 148, 303

Survival; Zinc; Cadmium; Mercury; Fish; Accumulation 148, 31

Tetraglycine; Nickel; Ni(II); 2'-Deoxyguanosine; 8-Hydroxy-2'-deoxyguanosine; DNA; Nucleohistone 148, 207

Thiuram sulphides; Nickel; Chelation; Dithiocarbamates; Xanthates; Pyridinethiones; Halogenated 8-hydroxyquinolines 148, 217

Thrombospondin; Nickel; Carcinogenesis; Oxidants; Amino acid crosslinks; Heterochromation 148, 191

Tin; Biological reference materials; Atomic absorption spectrophotometry (AAS); Instrumental neutron activation analysis (INAA); Radiochemical neutron activation analysis (RNAA) 148, 39

Toxicity; Nickel; Chromium; Algae; Ore; Invertebrates 148, 139

Trace elements; Mercury; Dam sediment; Neutron activation analysis 148, 45

Tropics; Ozone; Historical data; Ozone trend 148, 23

Tumor formation; Nickel; Latency 148, 185

Uranium processing mills; Natural radionuclides; Polonium-210; Lead-210; Hair; Urine; Occupational contamination 148, 61

Urease; Nickel; Hydrogenase; CO dehydrogenase; Methyl coenzyme M reductase 148, 157

Urine; Natural radionuclides; Polonium-210; Lead-210; Hair; Uranium processing mills; Occupational contamination 148, 61

Urine; Zinc levels; Copper levels; Serum; Spanish population 148, 67

Visceral tissue; Heavy metals; Seafoods; Bivalves; Molluscs; Fresh and canned samples; Whole molluscs; Canning industry products 148, 1

Welding; Stainless steel; Lung cancer; Confounders; Epidemiology 148, 303

Whole molluscs; Heavy metals; Seafoods; Bivalves; Molluscs; Fresh and canned samples; Visceral tissue; Canning industry products 148, 1

Xanthates; Nickel; Chelation; Dithiocarbamates; Thiuram sulphides; Pyridinethiones; Halogenated 8-hydroxyquinolines 148, 217

Zinc; Cadmium; Mercury; Fish; Survival; Accumulation 148, 31

Zinc levels; Copper levels; Serum; Urine; Spanish population 148, 67
